

Model shown:
CX-APMP-SS

This cutting edge American-made coffeemaker is ideal for commercial applications in office and foodservice environments. Each cup is brewed fresh using individually sealed, biodegradable coffee pods. The machine internally auto-ejects spent pods and is designed for high-volume operation.

Best of all, the CaféXpress is programmed with almost 100 custom specialty coffee recipes. With just the push of a button, you can brew all your favorite café drinks:

Freshly Brewed Coffee

Choose from a full menu of coffees and enjoy the flavor of coffee brewed one cup at a time.

Brewer Dimensions

W x H x D
 26 x 18 x 19
 15 Amp / 120 Volts / 1750 Watts

Espresso

For the true coffee aficionado, the CaféXpress offers the essence of coffee in its purest form: espresso.

Caffè Mocha

A gourmet blend of espresso and CaféXpress Premium Dark Cocoa creates a rich indulgence.

Caffè Latte

Enjoy all-natural and fat-free lattes brewed to the standards of the most exacting barista.

Hot Chocolate

CaféXpress Premium Dark Cocoa offers the gourmet taste of European-style hot chocolate.

Cappuccino

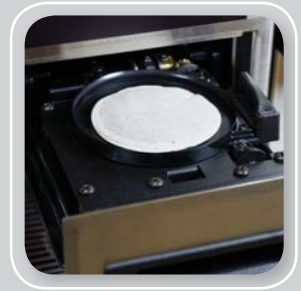

Savor fat-free authentic Italian-style cappuccinos topped with a smooth milk foam.

Hot Tea

Coming soon...the Organa™ collection of organic black, green, white and herbal teas.

Key Features:

Simple: To brew each cup, open the pod drawer, insert the pod of your choice, place cup in position and select drink with the push of a single button.

Intelligent & Reliable: The LCD screen provides simple directions and indicates when special action is required (i.e. empty waste disposal).

Rack Dimensions

W x H x D
