Refuel your staff with premium brand coffee, crystal clear water, and more.
Renew your productivity with customized refreshment and extraordinary service.

Visit www.firstchoiceservices.com to set up your renewal program and harness the productivity of effortless refreshment.

At First Choice, the Choice is Yours.

THE FIRST CHOICE WAY: Restocked to your satisfaction, over and over again.

Once we begin service to your company, we work with you to insure that your facilities stay stocked with refreshment and that our service and pricing to you remains consistent.

We start by working together with you to establish standardized stock levels (par levels) for First Choice products at each of your facilities. Our general rule of thumb is to maintain stock at 125% of your average usage. We keep you on a regular route to keep costs down. First Choice runs more efficiently, your facility stays stocked, and your billing stays more consistent. We stock over 20,000 customers using this method and as a result are considered one of the best services in every city we serve.

PRE-CALL: Want us to call ahead prior to delivery?

Easily done! Just let us know that you'd prefer our pre-call service and we'll fax, email or call two to three days prior to let you know that our truck will be in your area. You'll then have 24-48 hours to send us your order prior to our next run through your area. You maintain more control over your inventory, and First Choice offers effective and efficient service customized to your company's unique needs.

AS NEEDED: We're ready whenever you are.

Our As-Needed program is the perfect choice for companies with very sporadic usage of First Choice products.

For instance, those businesses who have a large number of meetings or conferences, and then none for weeks are a natural candidate for this program. You simply send us your order as needed and we send it out to you within 24 hours via your pre-established shipping method.

COMPLETE BREAKROOM SOLUTION: Want it all? Want it now? First Choice can help!

From Cascade to plastic wrap to sponges and Jet Dry, we stock just about anything a company might consume in a kitchen. Save time, effort and money when you take advantage of our Complete Offering. Our route driver will keep your kitchen so well stocked that you may never have to run to the store again.

“Ahhhh...”

*Caffeinate. Ruminant. Appreciate.
(Repeat.)*

Coffee is more than a drink. It's a renewal experience with the power to refuel your mind and shift your perspective-cup after cup, after cup. Make sure your office gets the renewal experience it deserves with First Choice's customized refreshment, and comprehensive line of premium coffees, teas and more.

Visit www.firstchoiceservices.com for more information, and to arrange a demonstration and free coffee tasting in your office.

FIRST CHOICE BRAND COFFEE EQUIPMENT

In order to offer a superior brewer, First Choice has designed and produced a range of custom models, from glass pot to the latest thermal options. Typical brewers have several built in problems, such as pot level fluctuations, poor quality internals and inaccurate thermostats. First Choice Brewers address these issues, as well as maintain simplicity of use and low maintenance requirements.

The FC Series of brewers has several pleasant advantages:

- Maintains pot level from 5 pounds of pressure to 100 pounds of pressure.
- Thermostat cycles 1/5 of the time for a longer life.
- Hot water can be drawn from the spigot without affecting the pot level.

Personnel in charge of 1 brewer might be less sensitive to these features, but those in charge of 5 to 100+ brewers see the time savings quickly.

Super Bowl Brewer:

- 18" height – lowest height thermal brewer
- Nearly unbreakable
- Pours like a traditional glass pot
- 60 oz capacity
- Maintains great coffee taste for 4 hours

Airpot Stubby:

- 19" height – low height in a pump pot
- Nearly unbreakable
- Don't have to lift to pour
- 60 oz capacity
- Maintains great coffee taste for 4 hours

Airpot:

- 23" height – full height pump pot
- Glass lined
- Traditional look and feel
- 60 oz capacity
- Maintains great coffee taste for 4 hours

3-burner:

- 18" height
- That glass-pot experience
- Coffee stays hot forever
- 60 oz capacity
- Maintains great coffee taste for ½ hour
